

Chanuk Lee

 Website  tallyforce@kaist.ac.kr  GitHub  Google Scholar

EDUCATION

Korea Advanced Institute of Science and Technology (KAIST)

Mar. 2022 – Present

B.S. in Computer Science

Minor in Mathematics

Absent for mandatory military service (ROK Air Force, 2024–2025)

Expected Graduation: Aug. 2028

Hansung Science High School

Mar. 2020 – Feb. 2022

Early graduation in 2 years

RESEARCH INTERESTS

My research interests lie broadly in **large language model (LLM) post-training**, with a particular focus on reinforcement learning with verifiable rewards (RLVR) and distillation.

Recently, my work has focused on improving exploration and sample efficiency in RLVR through better training objectives and exploration mechanisms. More broadly, I am interested in understanding how reasoning capabilities emerge, improve, and can be efficiently transferred through post-training.

RESEARCH EXPERIENCE

KAIST MLAI Lab — Undergraduate Research Intern

Oct. 2025 – Present

Advisor: Prof. Sung Ju Hwang

- Conduct research on LLM post-training, focusing on RLVR, reasoning, exploration, and distillation.

TECHNICAL SKILLS

Programming Python, PyTorch

LLM Ecosystem Transformers, PEFT, TRL, verl, vLLM

Experimentation Weights & Biases, Git, Linux, L^AT_EX

Languages Korean (Native), English (Professional proficiency)
